

VOL. 1.

EDMONTON, ALBERTA, MONDAY, OCTOBER 12 1903

No. 237

TELEGRAPHIC.

THE GRAIN ACT

SENATE AND COMMONS DISAGREE.

COMMONS PROTECT THE FARMERS — COMPELLS VOTING BILL OPPOSED.

(Bulletin Special Dispatch.)

Ottawa, Oct. 10.—The Senate had amended the Grain Act to require a farmer to pay six dollars a day demurrage on a car asked for and not loaded. The Commons refused to agree and struck out the provision, leaving the farmer to pay the ordinary demurrage of one to two dollars a day. If the Senate refuses to concur in this amendment the bill will not come into effect.

"Charlton's" bill for compulsory voting was strongly opposed by the government members and was held over.

WEATHER

The weather continues fairly warm throughout the Territories and Assiniboina. Local showers have been recorded this morning in Manitoba, but yesterday and Saturday were mostly fair in all districts. Indications are for fair weather with warm days and not much frost at nights.

Winnipeg, October 12th.

WHEAT IS HIGHER.

Saturday's wheat market was higher.

GRANIN BILL AMENDED.

The Manitoba grain bill has been amended.

WAR THREATENS IN THE EAST.

War rumors continue to be ominous in the Orient.

WILL INSPECT WESTERN REGIMENTS.

Lord Dundonald will inspect western regiments this fall.

BROKE TROTTING RECORD.

Major Delmar and Lou Dillon broke the world's trotting record.

HONORS FOR CANADIAN GOLFERS.

Canadian lady golfers have carried off honors at Philadelphia.

VAST CROWD AT BALL MATCH.

Before 17,000 people the Boston baseball team defeated Pittsburgh.

FARNELL DEFEATED.

J. H. Farnell was badly beaten in the South Meath bye-election.

TO CUT GRAIN RATES.

The American steamship combine has been formed to cut grain rates.

CONSERVATIVE FOR FERNIE.

The returning officer at Fernie, B.C., has declared Mr. W. R. Ross elected.

1,500 EMPLOYEES TURNED OUT.

Some 1,500 employees of the Vanderbilt system shops will be let out of work today.

TEACHERS IN SESSION.

The annual meeting of the Eastern Assiniboina Teachers' Association was held at Whitewood.

THE OAT MARKET.

Winnipeg oats, No. 2 white, 31 1-2 cents a bushel.

RIFLE ASSOCIATION.

A practice of the Edmonton Rifle Association was held on Saturday afternoon, a few members walking out to the range.

Several of these completed their class firing, a report of which will be given later.

So much time was occupied with class firing that most of the other members present had only the opportunity of shooting at the 200 yards range, the scores at which were as follows.

H. B. Spratt, 29.
N. A. Osborne, 27.
J. D. Mavety, 26.
G. A. Reid, 26.

The light was very dull and hazy, making fine shooting impracticable.

As the committee has not fully decided as to the fall matches, which they had proposed holding on the 15th inst., they have considered it better to postpone these for another week and have an all-day shoot on Thanksgiving Day, Thursday, 25th inst., due notice of which will be given.

LOCAL

—Train left Red Deer on time.
—Thursday, October 15th, is Thanksgiving Day.

—Jas. York has leased the skating rink for the coming season for \$1500.
—The basement for the new Bank of Montreal building has been completed.

—The price of bread is being raised in Edmonton to eighteen loaves for one dollar.
—During the last ten days thirty-five cows have been impounded at Calhoun and Ferguson's barn.

—Chas. Haggith will enter into partnership with W. H. Parsons in the real estate business.

—There will be a meeting of the proposed whist club in the Alberta hotel parlors at 8 p.m. Monday, Oct. 12th.

—Over six hundred thousand bricks are being used in the construction of Revillon Freres warehouse to the rear of their store.

—The Calgary Albertan says that E. B. Eddy will likely establish a branch of his match and pulp works at either Calgary or Edmonton.

—Commodore Shott left today for Fort Pitt with an exceedingly large barge of provisions and supplies of all kinds for the British colony stores.

—Mr. Goodridge, the Fort Saskatchewan mail driver, was unable to go out this morning having been badly kicked by a horse Saturday night.

—Some of the Doukhobors who were confined at the Regina barracks during the summer have been returned to confinement for persisting in their fanatical tendencies.

—Three additional catch basins for carrying off the surface water, are being constructed on Jasper avenue east. One is being put in opposite Sommerville & Son's hardware store, and the other two opposite Ross Bros., on each side of the street.

—Leader—Mr. Everett J. Casleay, who has been employed with Mr. W. A. White, and who is a popular member of the fire brigade, Y. M. C. A., and other organizations in the city, left this morning for Edmonton, where he has accepted a position with the firm of Bellamy & Son.

—The High School football club has organized with the following officers. Hon. President, Mr. A. Taylor. President, Mr. Ed. Mitchell. Vice-President, Mr. A. Minelly. Sec-treas. Mr. D. Ross. Committee, R. McDougal, C. Umbach and H. Carter. The club is open for challenges.

—Strathcona people have issued an illustrated pamphlet descriptive of their town. The booklet is an exceedingly creditable one, but the writer has evidently forgotten himself, when in referring to their water supply, he says, "This is a decided advantage we have over our 'sister town' of Edmonton, just across the river, where the population is dependent upon the daily rounds of the water tank man."

—Two independent Greek missionaries, Rev. John Bodrug and Alexander Baezynski, arrived here Friday night. They went out to Beaver Creek Sunday morning. They are going to visit their country people, Galicians and Bukowinians, throughout this district. They were called by Galicians to come, and they expect an Archishop Serafini to come up here in a few weeks, who will ordain several ministers for Edmonton district, and organize independent Greek congregations.

—An Edmonton business man, who has recently spent two weeks in Calgary, says that in wholesale establishments Calgary is making good progress. However, he says that the retail trade in Calgary is not nearly so extensive as at Edmonton. There is more business being done in Edmonton in one day than in Calgary in two. Edmonton, yet, can scarcely expect many wholesale establishments, but when the Canadian Northern or the Grand Trunk Pacific Railway goes through here, Edmonton will undoubtedly become a great wholesale business center.

PERSONAL

Miss Annabel Innes, of Winnipeg, is visiting her sister, Mrs. A. M. Stewart.

A. C. Alexander and W. Taylor, of Lesser Slave Lake, are in Edmonton today.

Miss Phillips, of College avenue, returned from her visit to the coast on Saturday night.

Jack Edmonton who has lately been in charge of the Hudson's Bay company's tramway on the island at the head of the Grand Rapids on the Athabasca River, arrived in Edmonton on Saturday.

As the committee has not fully decided as to the fall matches, which they had proposed holding on the 15th inst., they have considered it better to postpone these for another week and have an all-day shoot on Thanksgiving Day, Thursday, 25th inst., due notice of which will be given.

GRADING OPERATIONS

On the Canadian Northern at Edmonton Being Hurried Forward.

—Grading operations for the Canadian Northern Railway at Edmonton are being rapidly pushed forward. The right of way through the Easton property has been settled and the road has been graded through it. The line is now ready for the rails from the end of the present station below the hill to the Great estate. Here a large force of men are at work grading through the property.

It is expected that the rails will be laid on the track ready to them immediately.

POLICE COURT

Perry Committed For Trial—Evidence of Extensive Burglaries.

The circumstances of the arrest of Perry, alias Henderson, alias Lepage, for setting a batch of stolen furs to Thos. Hourston, have already been recounted. The trial was completed in the police court on Saturday before Police Magistrate Cowan and the prisoner was committed for trial.

Since then Chief of Police Dean has been on the warpath, and has discovered considerable interesting evidence. Perry, the prisoner, is said to have kept on hand at Perrys' livery stable a horse and saddle. The police discovered where Perry had been lodging, and an examination of his room was made. Under the bed was found a quantity of muskrat robes, white H. B. blankets, a considerable number of razors, with the Hudson Bay Company's stamp on them. Besides there was a new trunk packed with new goods which have since been identified as belonging to Revillon Freres and the Hudson Bay Company. Perhaps the most interesting and most convicting of all is a chest of burglar's tools consisting of revolvers, shoulder drills, fifteen other drills of various sizes, three bunches of sixty-seven skeleton keys, one dark lantern, dynamite cartridges and caps, fuses, key hole saws, and many other similar tools.

Perry will come up for trial at the sittings of the Supreme Court.

HOGTOWN

A few days ago a telegraphic report from Ottawa announced that the headquarters of the Northwest Mounted Police were to be moved from Calgary to Edmonton. This step, in the order of things, is nothing but natural, for as the great country to the north, east and west is being opened up, it will be there that the police will be most needed and Edmonton will be much more central in location than the city two hundred miles south. Of course Calgary does not see it in this light, and, according to her usual custom, is setting about to petition the Dominion government, protesting against the change. Nothing else was expected of Calgary, or "Hogtown," as western newspapers now style that ambitious city. The Herald, not satisfied with the establishment of a training school there, proudly boasts that Calgary is big enough to accommodate both the school and the police barracks. So is Blackfalds or Morningide, but the government has decided to establish the headquarters of the police at Edmonton and will do so despite Calgary's bumptiousness or the Herald's wailings.

—Strathcona people have issued an illustrated pamphlet descriptive of their town. The booklet is an exceedingly creditable one, but the writer has evidently forgotten himself, when in referring to their water supply, he says, "This is a decided advantage we have over our 'sister town' of Edmonton, just across the river, where the population is dependent upon the daily rounds of the water tank man."

—Two independent Greek missionaires, Rev. John Bodrug and Alexander Baezynski, arrived here Friday night. They went out to Beaver Creek Sunday morning. They are going to visit their country people, Galicians and Bukowinians, throughout this district. They were called by Galicians to come, and they expect an Archishop Serafini to come up here in a few weeks, who will ordain several ministers for Edmonton district, and organize independent Greek congregations.

—An Edmonton business man, who has recently spent two weeks in Calgary, says that in wholesale establishments Calgary is making good progress. However, he says that the retail trade in Calgary is not nearly so extensive as at Edmonton. There is more business being done in Edmonton in one day than in Calgary in two. Edmonton, yet, can scarcely expect many wholesale establishments, but when the Canadian Northern or the Grand Trunk Pacific Railway goes through here, Edmonton will undoubtedly become a great wholesale business center.

MONDAY, OCTOBER 12TH, 1903.

FROM OTTAWA

Bulletin Correspondence.

The sudden death of Henry Cargill, M. P. for East Bruce, which occurred last night almost in the active discharge of his parliamentary duties, is an event at once striking and melancholy. Mr. Cargill was one of the most popular members of the House and his friends numbered as many on one side of politics as on the other. He spoke but seldom, but his large business experience, his unprejudiced view, and his clearness of expression, always secured him the best of attention. During the afternoon he had made a short speech on the Intercolonial estimates, during which it seemed to be in excellent form. At the conclusion, however, as he felt the need of fresh air, he took a walk around the buildings, and just as he was about to ascend the steps on his return a fainting spell overtook him. He was carried into the buildings and placed on a couch in the apartments of the Clerk of the House, where he received all the attention that medical skill and the sympathy and assistance that friends and relatives could provide. It was without avail, however, and at a few minutes to 11 p.m. he died. The immediate cause of death was breakdown of the action of the heart. The funeral takes place today from the parliament buildings to the railway station, from whence the body will be conveyed to his home at Cargill, in East Bruce, where he will be buried.

Mr. Cargill was a wealthy lumberman and also carried on a thoroughbred farm. He had been a member of parliament almost unbrokenly since 1887, and held the highest esteem of all with whom he came in contact. His age was 55 years.

Yesterday's proceedings were chiefly occupied in discussion of the Intercolonial estimates, which were being put through under the superintendence of Hon. Mr. Fielding, acting minister of railways. It was developed in the course of the discussion that the Prince Edward Island section of the Intercolonial had been operated at a loss of over \$40,000 last year and that a similar deficit was expected for the current year. The estimates for operation of the mainland portion of the Intercolonial was over five million dollars last year, and would be over six million dollars this year. This, however, does not represent a loss, as the earnings stand against the vote for operating expenses. With the continual increase, however, in the cost of operating, there must be a corresponding increase in the earnings or there will be a loss. A comparison was made by one of the speakers between the results of operation of the Intercolonial, which showed a very small percentage of earnings over the cost of operation, and the results of operation of the Canadian Pacific, which paid nearly six per cent last year on a capital of \$341,000,000.

The conclusion was drawn by the speaker that the difference arose from the difference in the ability of the management of the C. P. R. as compared with the Intercolonial. No doubt the C. P. R. is better managed than the Intercolonial, but no amount of good management could make the difference in the showing between the two roads. It was not the Canadian Pacific Company that paid 5 9/10 per cent last year on \$311,000,000 besides operating expenses. It was the people of Canada who paid it in high rates taken out of them by the management and operation of the C. P. R. The huge profits shown by that company are the strongest argument against uncontrolled corporate ownership of railways that could possibly be advanced. When it is possible for a company to pay nearly six per cent on a capital of \$341,000,000, which represents an actual investment of some two hundred millions, of which one hundred million was contributed in the first place by the people, it shows that the railway situation in Canada needs revision. By the terms of their contract the C. P. R. are placed beyond government regulations or control of rates. The only way in which the enormous takings of the C. P. R. from the people of Canada can be reduced

is by the building of a competing transcontinental line under conditions which will ensure to the people an efficient service at rates based upon the cost of the service. This is the essential principle of the Grand Trunk Pacific agreement, and the one which must most command the scheme to the favorable consideration of the public in all parts of Canada.

October 2nd, 1903.

EDMONTON TRADE

The past week has been a very busy one at the Edmonton station. A much larger quantity of freight than usual has been received. During the week fifty cars of freight were received at the station and nine were sent out. The following table gives the number of cars and the commodities in each:

Incoming Cars.	
Lumber	12
Furniture	2
Fruit	3
Flour	1
Shingles	1
Sugar	1
Biscuits	1
Stone	2
Stoves	1
Lath	1
Cement	2
Oil	1
Groceries	3
Implements	1
Settlers' effects	3
Bear	1
Trunks	1
Nails	1
Sewing Machines	1
Way Cars	11
Total	50

During the week nine way cars of local freight were shipped out from Edmonton.

SEED THINGS

The Regina Standard has a fashion of seeing things as they exist. In its last issue we find the following paragraph:

"The ambitious city of Calgary now boasts the Western Canada College within its bounds. There was a big opening and Premier Haultain as nominal head of our educational affairs was there. Calgary though rich and prosperous, is not altogether free from the taint of selfishness. In fact, so marked is that feature of the civic character that western contemporaries often write it 'hoggtown.' We are not prepared just now to go quite so far, but a little incident closely related to the college opening is a case in point. A deputation was appointed to 'take advantage' of Mr. Haultain's presence by urging upon him Calgary's need of a normal school as well as a college. It was probably thought that in enjoyment of the generous hospitality for which Calgary is noted, the premier would grant anything they might request—short of half his kingdom. Mr. Haultain, however, kept his head."

IN THE SUPREME COURT OF THE NORTHWEST TERRITORIES NORTHERN ALBERTA JUDICIAL DISTRICT.

In the estate of Henry E. Spear, deceased.

Notice is hereby given pursuant to the order of the Honorable Mr. Justice Scott, made herein on the 20th day of September, 1903, that all executors and others having claim against the estate of Henry E. Spear, who died on or about the 3rd day of June, 1903, are required on or before the 30th day of November, 1903, to send to Messrs. Short, Cross, Biggar & Ewing, 11 Jasper Avenue, Edmonton, for the executor of the said deceased, their Christian and surnames, addresses and descriptions, the full particulars of their claim, and that all account and the nature of their securities, if any, held by them, duly verified by statutory declaration.

And further take notice that after the matter is heard before the said master will proceed to distribute the assets of the said deceased among the parties entitled thereto, having regard only to the claims of which he shall then have notice, and that said executors will not be liable for any debts or any part thereof to any person or persons of whom claim notice shall not then have been received by him or his advocates aforesaid at the time of such distribution.

Dated the 28th day of September, 1903.

SHORT, CROSS, BIGGAR & EWING,

Jasper Avenue, Edmonton, Alberta.

ROSS BROS. LTD.

FATTENING CHICKENS

The crate fattening of chickens is a profitable business for almost every farmer to engage in. It is a simple undertaking that can be managed by a member of the farmer's family who is sufficiently interested and enterprising to study the work and construct the fattening crates. No building is required in which to place the crates. Grain on hand, with the exception of corn or peas, will do. Before the chickens are placed in the crates they should be dusted with sulphur to kill the lice. The first week the chickens should be fed the mash sparingly three times a day, in order to accustom them to the change of diet and the confinement. After the first week the chickens should be given twice a day as much mash as they will consume. For one week before the chickens are killed a small quantity of tallow should be added to the mash to increase the juiciness of the flesh. Fresh water should be given in the trough twice a day and grit or gravel twice a week. At all the illustration stations the chickens are fed from the trough throughout the fattening period. The cramping machine has not been used for feeding chickens for two years.

LIVED 25 YEARS IN NORTH

Rev. Mr. Spedale and his wife, who have for twenty-five years been missionaries in the far north, 190 miles from the Arctic ocean, are at Winnipeg on their way to England. Speaking to a Free Press reporter, tracts of this timber land and from twenty-five years ago by the Church of England Foreign Missionary Society of London. From Winnipeg he went overland to Athabasca Landing, a distance of 1,000 miles. With him at the time was Rev. M. Sing, whose health became impaired as a result of the arduous trip, and after a lingering illness of two years, he died.

The country where they labored, Mr. Spedale says, covers an area of 1,000,000 square miles from Athabasca Landing to the Arctic ocean. In the valley of the mighty Mackenzie Mr. and Mrs. Spedale made their headquarters. The Athabasca, Peace and Slave Rivers flow into Great Slave Lake, whence rises the Mackenzie, and its hidden tributaries, that in the next twenty-five years may be secured. A large party of Americans, who took the trip for pleasure this summer from Athabasca Landing to the Arctic ocean have taken up land and intend opening up the many industries on a large scale in another year.

When Mr. Spedale arrived in that country, some twenty-five years ago, he made his headquarters at Fort Simpson, a station midway between Fort Smith and the Arctic ocean. The Hudson's Bay company at that time had tiny little posts at different points in the district and the Indians were in a far from Christianized state. Now there are five successful mission stations, all of which are in a flourishing condition and were under the supervision of Mr. Spedale, who had as his assistants seven Canadian missionary teachers, from the Eastern Canada Missionary headquarters. There are two or three Roman Catholic missions in that country under the guidance of the Jesuit fathers.

Specifying the different sources of fortune to be made the returned missionary mentioned the fisheries on Great Slave and Green Bear Lakes. Whitefish, trout and salmon abound, and Great Bear Lake is especially noted for its salmon trout, a most delicious species. The Peace and Laird rivers are also heavily timbered with spruce, birch, pine and cottonwood, while the harder growths are to be found in spruce, cottonwood, cottonwood trees of that country are still a great deal of attention in the United States, and several pulp mill owners have purchased large lots so frozen and barren after all, this country will supply their mills.

Economic minerals of every known species are to be found all over this vast area. Mica is very abundant in the lower grades; the veins containing richer quality, no doubt, will be unearthed through process of development. Gypsum in immense quantities and pipe clay, indicating mica-schists, are very abundant. At Fort Norman, which is situated at the confluence of Great Bear and Mackenzie Rivers, very full evidence of coal veins appears at the surface. A rock salt mine at Fort Norman, and a few miles below Fort Smith, a mine of purest salt, have been supplying the country with that necessity.

Copper is so abundant that the Indians use it for making cooking utensils.

Mr. Spedale estimates that he has travelled 30,000 miles through that country by dog team, canoe and steamboat, visiting the different Indian posts.

In the summer there are few months in this midnight sun land. In the winter the thermometer stays around the forty below zero point, and frequently reaches the 60 mark, but there are no blizzards and very little snow.

In the summer there are few mosquitos, and the days are delightfully warm and bright, so the northland is not so frozen and barren after all, and not a half bad place to live in.

EDISON NOTES

We regret to have to announce that two deaths have occurred here during the past weeks in the persons of Mr. Robert Douglas, son of Ludwig Douglas, of Airdrie, Scotland, and Mr. Lyman Ulm, of Illinois, U. S. A. Mr. Douglas came here about six months ago from Scotland, mainly with the idea of improving his health, but it was easy to see that he was even then in the last stages of consumption.

Mrs. Mills have had a raising and have put up a fine house.

Mr. West, who came in with a ranch of horses from Nebraska, having driven all the way from that state to Edmonton, has bought a quarter section of Canadian Pacific Railway land and intends to go to the cattle raising business on a large scale. He will farm from time to time.

Wall Taylor is also putting up his West End farm. He is tickled to death with his new section, and

It may not be generally known that we are in the Belting Business but we are very much in it. We don't touch the cheap kind, but we sell the best grade of Leather Belting produced (Extra Brand), Single and double, all sizes. Once used, always used.

We have just unpacked our winter stock of Horse Blankets and Robes, and our showing easily surpasses anything ever offered in the City before. Thirty different kinds of Blankets, from the plain Jutes to the elaborate Stay-ons, and if we cannot suit you we have the satisfaction of knowing that nobody else can. We invite you to examine our stock.

Just a word about Trunks and Valises. We pay particular attention to these goods, and can say as a matter of fact without boasting that our stock is not only the largest but the best assort in the city. Don't take our word, but come and look around. We have a carload arriving in a few days which will make our stock equal to anything west of Toronto, and that is saying a good deal. Trunks from \$1.25 to \$10. Valises from 75¢ to \$15, and Suit Cases as high as \$35. See our special Ladies' Dress Trunks, nobody else has them. These are all bought direct from the factory and the prices are right.

Don't overlook us when you need a good set of Harness. We take pride in turning out good work.

thinks that this part of the country is O.K.

Quite a number of new settlers have come in since our last notes were written, and it is interesting to note that they are all a fine class of settlers.

The weather is simply perfect now, and as the roads are good, we trust that those people who have been waiting in town for a good opportunity to come up and see the country here will take advantage of this.

Edison, October 8th.

EDMONTON MARKETS

Butter—There is a good demand for first-class butter at twenty cents a pound.

Eggs—The demand for eggs remains as strong as ever, strictly fresh eggs bringing twenty-five cents a dozen.

Potatoes—The supply is plentiful at twenty-five cents a bushel.

Hogs—Hogs are in good demand and are being bought freely. The price paid varies considerably according to the quality of the animals. The price ranges about six cents a pound, although more has been paid.

Beef—Cattle are being bought for W. J. Reid, R. S. A. E. May, N. G.

What Is the Matter With Canada?

"She's All Right."

The relative percentage of the growth of trade of Canada as compared with the United States for the last five years show that of Canada as over double.

What Is the Matter With Manitoba
and the Territories.

"They're All Right."

Winnipeg is now the great wheat centre of America, the receipts greatly exceeding that of either Chicago or Duluth, Superior.

Westward the course of Empire makes its way. A few years ago the great wheat centre was Chicago, it soon shifted west to Duluth and now further west to Winnipeg. Winnipeg clearing house receipts rank 3rd in Canada.

Eastern Wholesalers, Manufacturers, Bankers, Capitalists and Railway Corporations seen the possibilities of this great country and are fast invading the west, realizing that west of Lake Superior is going to be the greater part of Canada.

What Is the Matter With Edmonton?

Edmonton is All Right and No Mistake About It.

A few years ago this place was scarcely known to outsiders, and then only as a remote Hudson Bay Company Trading post, now it is next to Winnipeg the best known and most largely and freely advertised town in Canada.

Influential bodies touring the West now always take in Edmonton, knowing that they will miss seeing the best part of the West if they don't. We could fill pages with extracts from their letters to papers in all parts of the world predicting a wonderful future for Edmonton.

The district, the location and the progress of events certainly justify such predictions.

Our town has doubled its population inside of two years, it will again do so within the next two years. Edmonton is going to be a large city. We believe it, and everybody says so.

Three years ago we had a large quantity of land for sale and in offering it for sale we said "Every person has had the opportunity offered, which if taken advantage of would have brought in rich returns. In many cases this fact is recognized too late, and looked back upon with regret." SUCH AN OPPORTUNITY we now offer you do not let it pass. BUY LAND and MAKE MONEY.

We sold nearly a quarter of a million acres and those we sold to have been able to double and triple their money.

We now have Another Opportunity

To Offer. This time it is

TOWN LOTS,

Known as the Norwood Addition.

We have surveyed the Alex Rowland Property adjoining the town, north of Rat Creek, into Lots 33 by 120, with good wide streets, lanes and boulevards.

These lots we are now offering at from \$40 to \$150 each on easy terms.

This is a beautiful residential site, high, dry and clean and is going to be a very popular locality, being so convenient to the business centre and being outside the town limits free of Municipal taxes,

Many enquiries for them are already being made.

The Sale Will Begin on

OCTOBER, 19 TH.

Take advantage of this opportunity and you won't have to look back upon it with regret as another lost chance.

The Price and Terms are Now Within the Reach of All.

Think of the money that has been made in Town Lots here in the past two years, is being made and going to be made.

Think of the money you might have made by buying early if you did not.

Buy Some of These Lots and Make Money.

REAL ESTATE SNAPS
